### DETAILED ACTION

1. Response to restriction requirement filed 06/26/2006 is acknowledged. Applicant elected claim 7 and canceled claims 31-37 directed to non-elected invention. Applicant is requested to submit updated claim set reflecting amendments of the claims 31-37.

2. Claim 7 is pending. The claim has been amended, first, to exclude mutation 184L in part b) of claim 7, and second, in order to obviate the applied prior art, to exclude particular combination of mutations in part c) of claim 7. Before applying a modified art rejection addressing changed set of mutations addressed in claim 7b), the following new matter rejection addressing changes in claim 7c) was deemed necessary.

#### ***Claim Rejections - 35 USC § 112, first paragraph.***

3. The following written description is deemed necessary in view of amendment to claim 7 (step c)).

Claim 7 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. . Claim 7, part c), introduces new matter as it introduces an unsupported specific negative limitation to exclude particular combination of mutations which happened to be described in prior art used in art rejection. The examiner has not found *ipsis verbis* support for such limited subgenus in

the specification, nor has applicant indicated support in the specification for the subgenus as claimed – see pages 24,25 of specification, for example. Applicant must cancel the new matter in response to this rejection.
